

# LED Color Column

Dim the lights and relax with the soft glow of colorful LEDs. Choose one of the eight programs that auto-rotate through an endless rainbow of colors that swirl, move and bounce. You can also set the column to glow a single color. Both options create a calming and mesmerizing atmosphere.

	Turn the column red.		Automated program - Rainbow
	Turn the column yellow.		Automated program - Flashes
	Turn the column green.		Automated program - Falling Snow
	Turn the column blue.		All Off

## Ideas for Use

- Use the remote to change the colors of the column teaching cause and effect
- Name each color as they change
- Wind down when you're feeling stressed or anxious. Sit quietly and watch the colors change
